## PROFESSIONAL SUMMARY

Motivated Data Engineer and Data Analyst and third-year Computers and Information student at Zagazig University (Expected Graduation 2028). Completed intensive training through DEPI, ITI, and NTI in building scalable data pipelines, ETL/ELT workflows, and data warehouses. Proficient in SQL, Python, PostgreSQL, dbt, Power BI, and Tableau, with a strong foundation in data transformation, data cleaning, analytics engineering, and business intelligence reporting.

## EDUCATION

**Bachelor's Degree in Computers and Information**
Zagazig University, Egypt | Expected Graduation: 2028

## WORK EXPERIENCE

**Data Engineering Trainee** | Digital Egypt Pioneers Initiative (DEPI)
*July 2026 – Present*

- Built hands-on experience designing scalable data pipelines and data warehouses
- Applied SQL, Python, PostgreSQL, and dbt for data transformation and analytics engineering
- Explored ETL/ELT workflows using Apache Airflow, Docker, Databricks, Kafka, and NoSQL databases

**Data Analytics & BI Trainee** | Information Technology Institute (ITI)
*June 2026 – September 2026*

- Completed 144 intensive training hours in Data Analytics and Business Intelligence
- Developed advanced SQL queries, data warehouses, and BI solutions using Microsoft SQL Server and SQLBI
- Created interactive dashboards with Power BI and Tableau; covered AI Agents and Workflow Automation

**Advanced Data Analytics Trainee** | National Telecommunication Institute (NTI)
*August 2026*

- Completed a 120-hour program in SQL, Python, Excel, Machine Learning, and Power BI, earning an 84.5% score
- Performed data cleaning, data preparation, and exploratory data analysis (EDA) to generate business insights
- Practiced real-world data analytics workflows and freelancing fundamentals

## PROJECTS

**Car Sales Analysis & Price Prediction**

- Developed an end-to-end data analytics and machine learning solution as part of an advanced training project
- Performed data cleaning and exploratory data analysis (EDA); built interactive Power BI dashboards
- Trained a machine learning model for used car price prediction and delivered an interactive HTML/Gradio user interface
